NERSC New User Training

September 10, 2013

The mission of the National Energy Research Scientific Computing Center (NERSC) is to accelerate scientific discovery at the DOE Office of Science through high performance computing and data analysis.

- **NERSC is a national supercomputer center funded by the U.S. Department of Energy Office of Science (SC)**
 - Supports SC research mission
 - Located at Berkeley Lab
- **SC supports a broad spectrum of energy-related research**
- **If you have SC funding, you can apply to use NERSC**
 - Other researchers can apply if research is in SC mission
- **4,500 users, 700 projects**
- **From 48 states; 65% from universities**
- **Hundreds of users each day**

NERSC's focus is on scientific productivity
